

QuickBooks Desktop to Xero: Migration Specification

Full historical migration from QuickBooks Pro, Premier, and Enterprise (.QBB/.QBW) into Xero UK.

Key Technical Challenge Solved: QuickBooks Desktop allows unbalanced multi-currency journal adjustments that standard converters fail to translate. TrustSwitch rebuilds currency translation tables row-by-row to guarantee £0.00 variance.

1. Extraction & Conversion Capabilities

Feature	QuickBooks Desktop	Converted Xero Target
Transaction History	Decades of .QBB company history	Full itemized invoices, bills, credit notes & journals
Class Tracking	Classes & Sub-classes	Xero Tracking Category 1 & 2
Multi-Currency	Foreign currency AR/AP accounts	Native Xero multi-currency conversion at historical rates
Inventory Assets	Standard inventory GL valuation	Opening balance balance-sheet journal with detailed list

2. Fixed Concierge Tiers
